

## PRAKASH DURGANI

*Head of Engineering and Operations*

Durgani leads the Angel engineering and operations teams. Durgani has over 10 years of experience in IP Communications, with a focus on IVR and Mobile platform development. His experience in software development technologies and standards includes SIP, ISDN, SS7, VoiceXML, Call Control, IMS (IP Multimedia System), and mobile operating systems and applications.

Prior to leading the Engineering team at Angel, Durgani was responsible for Angel's voice infrastructure as a VoIP Architect and managed the telecom operations team. Prior to joining Angel, Durgani was Senior Software Engineer at West Interactive where he led the VoIP based IVR platform development effort and was an active contributor to the development of InterCall's IP Conferencing platform, which currently serves over 2 billion minutes (as of 2006) a year.

Durgani graduated Magna Cum Laude with a B.S. in Computer Science from the University of North Texas.
